Book	Lumberton Township Board of Education Policy Manual
Section	2000 - Program
Title	Acceptable Use of Generative Artificial Intelligence (AI)
Code	2365
Status	Active
Adopted	February 22, 2024
Last Revised	March 13, 2025
Prior Revised Dates	9/12/2024

1. Purpose and Scope

This policy establishes guidelines for the ethical and responsible use of artificial intelligence (AI) tools in Lumberton Township School District. It applies to all students, staff, and faculty using AI for academic, instructional, and administrative purposes.

2. Definition of AI and AI Tools

For the purposes of this policy, "AI tools" refer to software applications that generate, analyze, or modify text, images, or other content autonomously or semi-autonomously, including but not limited to ChatGPT, Google Bard, and DALL·E.

3. AI Oversight and Implementation

- The Superintendent or designee will oversee AI usage and policy implementation.
- A District AI Committee will review AI tools, establish an approved tools list, and update guidelines as technology evolves.
- Teachers must communicate expectations for AI use in coursework and assessments.

4. Permitted Uses of AI

AI may be used to:

- Support research and brainstorming.
- Assist with writing, problem-solving, and coding when properly cited.
- Enhance personalized learning under teacher supervision.
- Improve administrative efficiency and lesson planning.

5. Prohibited Uses of AI

Students and staff may not use AI to:

- Plagiarize or misrepresent AI-generated content as original work.
- Fabricate or manipulate information deceptively.
- Generate harmful, biased, or inappropriate content.
- Violate privacy laws (FERPA, COPPA) by inputting sensitive data.

- Circumvent academic integrity expectations.

6. Academic Integrity and Citation
   - Any AI-generated content used in assignments must be explicitly cited following district-approved citation formats.
   - Teachers will provide guidance on acceptable AI integration within specific assignments.

7. Parent/Guardian Consent
   - Parents/guardians must review and acknowledge AI usage policies at the beginning of the academic year.
   - Alternative assignments will be provided for students whose guardians do not permit AI use.

8. Disciplinary Consequences for Misuse
   - AI misuse will be addressed per district academic integrity and technology use policies.
   - Consequences may range from assignment revision to disciplinary action, depending on the severity of the violation.

9. AI Tool Approval and Review Process
   - The district will maintain an approved AI tools list that aligns with educational goals and security standards.
   - AI policies will be reviewed annually and updated as needed to reflect technological advancements.
   - The Superintendent has discretion to modify policy enforcement in response to emerging AI developments.
