Privately owned technology used in violation of this policy may be confiscated. Any violation will subject the pupil to appropriate discipline and/or grading consequences.

The teaching staff member, in considering the use of privately-owned technology, will ensure such approval does not provide any advantage or benefit to the pupil who owns such technology over the pupil who does not own such technology.

The school district assumes no responsibility including security, damage, or theft for any privately-owned technology brought to school by a pupil.

The pupil shall be responsible for the proper operation and use of any privately-owned technology brought to school.

School staff members shall not be responsible for the effective use and/or technical support for any privately-owned technology.

Pupils are encouraged to purchase private insurance for loss, damage, or theft of any privately-owned technology the pupil brings to school.

2365 ACCEPTABLE USE OF GENERATIVE ARTIFICIAL INTELLIGENCE (AI)

The Board of Education recognizes the use of artificial intelligence (AI) is transforming the workforce, society and education and might result in increased and enhanced learning opportunities for students in the school district. However, the Board adopts this Policy to provide guidance and outline expectations for the use of specific generative AI in the school district.

For the purpose of this Policy, the Board provides the following definitions:

"AI" means all types of generative AI technologies that are trained on data, enable machines to learn, adapt and function to new and additional data and which create new content or outputs from a prompt to produce text, images, videos, or music.

"AI tools" means software applications and platforms that utilize AI technologies to perform specific tasks and solve problems that typically require human intelligence.

"Assignment" means any task or work required of a student as part of a student's educational and co-curriculum program in the district.

The Board acknowledges the potential of AI tools to enhance and transform a student's educational and co-curricular experience in the district. However, AI tools are not inherently knowledgeable and are trained from large amounts of data collected from various sources and require human oversight and verification. Outputs generated by an AI tool may be inaccurate, inappropriate, or incomplete. Therefore, the Board directs that administration prepare and maintain an Acceptable Use of Generative Artificial Intelligence Plan (AI Plan) that will include proper citation and/or documentation methods to support the content provided by an AI tool in a student assignment which maintains academic integrity.

The Superintendent or designee may designate an AI Coordinator to oversee the use of all AI tools in the district and may designate additional AI Coordinators and/or committees to monitor the use of all AI tools within the district.

The Superintendent or designee, in consultation with district staff and AI Coordinator(s), if applicable, shall develop the district's AI Plan.

The district's AI Plan will include details addressing the following issues:

1. A list of the schools, departments, and/or grade level(s) in the district where a staff member is authorized to permit student use of AI in assignments;

2. An explanation on when, how, and to what extent a staff member may permit a student to use AI in assignments;

3. A procedure that requires each staff member authorized to permit students to use AI in assignments to inform the students at the time of the assignment the conditions in which AI may be used;

4. A procedure for the Superintendent or designee and the AI Coordinator(s) in the district to approve and review the use of AI tools and a process to ensure strategies will be implemented in the district to address any issues regarding student use of AI in assignments. This may include, but not be limited to, areas such as academic integrity, bias, inaccuracy/misinformation, copyright/licensing unknowns, privacy violations, and equity of access;

5. A procedure to inform parents and receive parental consent in the beginning of each school year for the student to be permitted to use AI for assignments in accordance with this Policy and the district's AI Plan;

6. A list of prohibited uses of AI that violate this Policy or the district's Code of Student Conduct, which may include any use of AI which does not align with the conditions set when the assignment was provided to the student; using AI to complete an assignment in a way that falsely represents the assignment as the student's own; using AI to purposefully create misinformation or to misrepresent others with the intent of harming, bullying, or intimidating an individual(s); using AI with confidential student or staff personal information; and other prohibited behaviors and/or conduct listed in Policy and Regulation 2361 – Acceptable Use of Computer Networks/ Computers and Resources;

7. A list of consequences if a student violates any provision of this Policy or AI Plan which may include, but not be limited to, the consequences listed in Policy and Regulation 2361 – Acceptable Use of Computer Networks/Computers and Resources or Policy and Regulation 5600 – Student Discipline/Code of Conduct;

8. A procedure where the AI Coordinator(s), supervisors, administrative staff members, and other staff members review the procedures used in determining the activities where AI may be permitted to be used by students to ensure staff members are implementing AI procedures in accordance with this Policy and the district's AI Plan;

9. An approved list of AI platforms that may be used by students in assignments;

10. A procedure to be used by a staff member to address suspected plagiarism or academic dishonesty using AI in a student's assignment in accordance with the provisions of Policy 5701;

11. The method(s) or format(s) to be used by students on how to cite or document content generated from any AI platform that is used in an assignment.

The district's AI Plan and Policy will be reviewed and/or revised as needed.

In the event the Superintendent determines a provision(s) of this Policy or the district's AI Plan becomes inapplicable, inappropriate, undesirable, and/or irrelevant for any reason in the school setting, the Superintendent may temporarily revise or suspend a provision(s) of this Policy or the district's AI Plan. In such case, the Superintendent will report to the Board the reason for the revision or suspension and recommend the Board ratify the Superintendent's actions.

Adopted: 27 March 2025

2411 GUIDANCE COUNSELING

The Board of Education requires that a planned program of guidance and counseling be an integral part of the educational program of the schools to assist pupils in making and implementing informed educational and occupational choices including academic, career and personal/social development.

A program of guidance and counseling, including developmental career guidance and exploration, shall be offered to all pupils in this school district and shall be conducted entirely by teaching staff members certified as guidance personnel.

The Superintendent is directed to implement a guidance program that carries out the purposes of this policy and:

1. Involves teaching staff members at all appropriate levels;

2. Honors the individuality of each pupil;

3. Is integrated with the total educational program;

4. Is coordinated with available resources of the community;

5. Provides for cooperation of school staff with parent and shares parents' concern for the development of their children;

6. Provides for the means of sharing information among appropriate staff members in the pupil's interest;

7. Is available equitably to all students and prohibits biased counseling and the use of materials that discriminate among students on the basis of their race, color, creed, religion, national origin, ancestry, age, marital status, affectational or sexual orientation, gender, gender identity or expression, socioeconomic status, or disability; and

8. Establishes a referral system that utilizes all the aid the schools and community offer, guards the privacy of the pupil, and monitors the efficacy of such referrals.
